

Flatline

Suspect Statements Round 3

Joe Cooper

Oliver, Helen, and Jessica were the first to see me when visiting hours started at 10. Jess only stayed for 15 minutes and then Helen started talking about how Jess should take on more responsibility at work. She said it was for my health but that's a joke. Helen doesn't give a damn about me and the feeling is mutual.

They left at 10:30 and Kathy came in with Roy. It was good timing because he was able to give her all the technical details of the heart attack and saved me the trouble. They stayed for about 30 minutes.

Florence Cooper

Kathy and Frank arrived together at 9:45am and Monica started yelling at them. As I said, she was tired. Kathy told her to keep her voice down in the hospital and then she and Monica went into the vacant room beside Joe's and Frank and I went to the waiting area. I asked him what Monica was upset about but he said he didn't know. It sounded like it had something to do with him and Kathy so he must have been lying. About 10 minutes later Frank got a text message and went in with Monica and Kathy. Monica came out about 15 minutes later, then Frank and Kathy about 15 minutes after that. I can't imagine what was going on, it was all very strange.

Ronald Cooper

Florence and I went in to see dad at 11. He was asleep at first but when he woke we had a quick visit and that was it. Florence had said Monica was angry about something and I was more interested in finding her and getting to the bottom of that. We knew dad was going to be fine so we left at 11:15.

Betty Olsen

Monica's mom arrived at the hospital at 9:30am and they had a big fight. Monica never really liked her mom that much. She said she tried way too hard and tried to buy her love instead of just being a decent parent. Monica was looking for her birth parents and I can understand why her mom wouldn't want that. We were all just sitting in the waiting area so at least their fight broke up the boredom.

Adam Bentley

Monica and her mom had a big fight when Florence arrived at the hospital. I guess Monica didn't tell her we were coming because she looked surprised. The only thing I heard for sure was Monica say "you're not my mom" but that was nothing new. Then Kathy and Frank arrived and Kathy and Monica went into the room next to Joe's and left her mom with Frank.

Helen Cooper

Florence arrived around 9:30 and she and Monica had a fight. Honestly I can't feel sorry for Florence that Monica turned on her, she brought it all on herself. She spoiled her from day one trying to buy her love. It was all her fault that Monica was the entitled brat that she was. Florence was in a right tizz lately too... I heard Monica was looking for her birth parents. Florence was so possessive of Monica she'd do anything to stop that happening.

Oliver Cooper

Jess, Helen and I went in to see Joe at 10. I thought Frank was joining us because he followed us up the hall. Turns out he went into the room next door. I could hear voices in there while we were visiting with Joe and I moved closer to the door so I could hear better. Kathy was in there too. I didn't hear everything but Monica told Kathy that Joe would dump her once she told Joe what was going on.

Jessica Cooper

When we got to the hospital the doctor and Monica came out of grandpa's room and went into the room beside it. I thought he was going to tell Monica something about grandpa so I went and listened at the door. Instead I heard Monica accuse him of having an affair with her mom. I mean gross... for both of them. When they came out the doctor told us grandpa was going to be fine but we we couldn't see him until visiting hours started at 10. So why did special little miss Monica get to see him early, huh?

Roy Patterson

Around 8:30am I was on my way to see Joe when Monica arrived. I let her in to see Joe right away because she'd driven all night and he was awake and eager to see her. They talked about Kevin... I don't know the background but I'd guess he and Monica had fallen out over something. Joe said to quit the band and Monica said she was ready to think about it seriously. Then Joe went to sleep and I showed Monica the spare room next to Joe's and told her she could use it to nap or freshen up while she was at the hospital.

Kathy Nichols

I didn't get to see Joe until 10:30. I wanted to go right in as soon as visiting hours started but Oliver told me to wait my turn... he was going first. I only had a quick visit so that others could see him too and told Joe I'd come back.

Kevin Banks

In the waiting room around 9, Jessica was telling her parents that Monica and the doctor were talking about an affair between him and Monica's mom. They were in the spare room and I guess Jessica had been listening at the door or something.

Frank Dawson

I went to find Monica and get an update on Joe. She was in the spare room next to Joe's room with Kathy, so I joined them.
